SUMMARY

Enthusiastic, highly-motivated final year software engineering student with proven ability to work in a collaborative team environment who is curious, likes to seek out challenges and eager to learn new things.

EDUCATIONAL BACKGROUND

African Leadership University – Kigali, Rwanda   **September 2022 – Aug 2025**

BSc Software Engineering (Full Stack)

Relevant Coursework: Python, JavaScript, Advanced backend, Mysql, Airbnb clone

PROFESSIONAL WORK EXPERIENCE AND PROJECTS

Frontend Developer Intern   **January 2024 – April 2024**

Odeen Microsystems, LLC – Boston, USA

- Collaborated with a diverse team to build Odeen's official website, using React, Tailwind CSS, and the Mantine library based on provided UI designs.

Rise farmer360 web app   **December 2023**

- Developed a web application featuring a marketplace, a chat room for information exchange, and live weather forecasts specifically designed for farmers.
- Utilised HTML, CSS & JS for frontend and Node.js & Mongodb for backend development.

PinkRibbon mobile App   **August, 2024**

- Led a team of three to develop an app for our trimester's final project, aimed at educating people about breast cancer and providing guidance on self-examination techniques, using Dart/Flutter and Firebase.

Tour Guide Volunteer   **May, 2023**

Pan African Mathematics Olympiad – Kigali, Rwanda

- Served as a tour guide for international participants at the Pan African Mathematics Olympiad in Kigali, Rwanda, providing cultural insights and logistical support throughout the event.

EXTRACURRICULAR ACTIVITIES

Participant, Google Developer Students Club   **September 2023 – Present**

A member of the club
